THE HOUSE OF CLARITY™

VERSION 2 · OCTOBER 2026

Logo & Packaging Guidelines

For packaging, products, print and digital

Four marks, one purpose each

Every mark is supplied as vector (SVG and print PDF, outlined, no fonts) and as transparent PNG, in seven colours.

STACKED LOCKUP

Monogram, wordmark and the House line. Cartons, gift boxes, brochures, presentations, press, large signage. The default for any large format.

WORDMARK WITH HOUSE LINE

Website header, inserts, cards, labels, e-mail signatures. Use from 32 mm (print) or 200 px (screen) wide. Narrower: the wordmark alone.

WORDMARK

Small spaces: label corners, ribbon, mobile header, seals. Use from 17 mm (print) or 90 px (screen) wide.

MONOGRAM

Seals, stickers, tissue, shipper tape, app icon, favicon. Never the only mark on a first-time customer's pack face; pair it with the wordmark.

WHAT EACH MARK IS MADE OF

- **Wordmark:** Libre Bodoni Bold (700), the same family the website uses. Checked letter by letter against the supplied artwork: H, I, A, R, E and L match at 99–100%.
- **House line:** THE HOUSE OF CLARITY™ in Libre Bodoni capitals, letter-spaced 26% of the em, set at 72% of the wordmark width, centred on it.
- **Monogram:** the supplied artwork, traced to vector from the 3000 px file. Its C is not a Libre Bodoni letter, so it cannot be rebuilt from the font: treat the trace as a vector copy of the original and have the designer confirm it against the source.

The wordmark is spaced open, like a luxury house

The supplied wordmark used the font's default spacing, so the serifs of I-A-R-E touched and would clog at small sizes. The adopted spacing opens every pair evenly.

AS SUPPLIED: tracking 0 (A-R gap 0.8% of cap height)

CHIAREL

ADOPTED: +60 units (6% of the em), +25 extra on A-R and R-E

CHIAREL

CLEAR SPACE

Keep a margin on every side equal to **X**, the height of the capital C of the wordmark. In a tight application X may drop to half, never lower. Nothing (text, edges, folds, other logos) enters the margin.

MINIMUM SIZES (WIDTH OF THE LOGO)

MARK	PRINT	FOIL / EMBOSS / DEBOSS	SCREEN
Stacked lockup	32 mm	34 mm	160 px
Wordmark with House line	32 mm	34 mm	200 px
Wordmark	17 mm	34 mm	90 px
Monogram	14 mm	20 mm	32 px (use the tile icon below 32 px)

Derived from the font's finest stroke (30 of 1000 units): print needs at least 0.10 mm, foil and blind emboss at least 0.20 mm; the House line capitals need at least 1.0 mm. The monogram row is a conservative estimate: confirm on a printed proof.

Secondary packaging and collateral

CARTON, INK

Champagne hot-foil lockup, centred, about 50% of the panel width. The signature pack.

CARTON, IVORY

Blind deboss (no ink), or Ink on Ivory. Never champagne ink.

CARTON, RED OCHRE

Peach Dust or Ivory print. Foil only at 30 mm wide or more.

ITEM	MARK	NOTES
Gift box, outer carton	Stacked lockup	Front panel, centred, upper third; the House line stays attached to the wordmark.
Shipper, tissue, tape	Monogram	Tissue: repeat at low contrast (tone-on-tone) so it reads as texture.
Seal sticker	Monogram	25 mm, Ink or Red Ochre on Ivory; champagne foil on Ink.
Insert card, thank-you card	Wordmark with House line	Top left or centred, clear space X.
Velvet ribbon	Wordmark	Reprint the ribbon artwork with the adopted spacing at the next run; keep one colour (champagne on Garden or Red Ochre ribbon).
Jar and bottle face	Unchanged for now	Pack faces currently carry CHIAREL / ITALIA. This guide does not change them. If the owner migrates them, use the wordmark (not the lockup), at least 34 mm wide, in champagne foil.

LINES AND CLAIMS

- **The House of Clarity™** is the house descriptor, set only as part of the lockups (never typed separately in another font beside the logo).
- **Beauty in Ritual** (if kept) belongs on the back panel, insert or campaign, beside the logo, never inside the lockup. Trademark check still open.
- Use ™, not ®, until a registration exists. Place the ™ as drawn in the files; do not add a second one.

COLOUR BY GROUND ON A PRODUCT LABEL

- Clear or amber glass, Ivory label: Ink text, Red Ochre accents.
- Dark glass or Ink label: champagne foil or champagne print.
- Formal Garden or Red Ochre label: Ivory or Peach Dust text; champagne only for the wordmark at foil sizes.

DON'TS

- Stretch, squash, skew or rotate the logo
- Re-space or re-set the wordmark in any font
- Add shadows, glow, bevel, outline or gradient
- Place on busy photography without a calm area behind it
- Recolour outside the palette
- Put "Beauty in Ritual" or any text inside the lockup
- Use the traced monogram below its minimum size
- Use champagne ink on Ivory, white or Peach Dust

Small sizes get a tile

The supplied favicon was a transparent champagne mark: 1.7:1 on a white tab and 1.3:1 on a grey tab, so it almost vanished, and iOS and Android fill transparency with black or white. Every small-size icon is now the monogram on a solid Ink tile (10.2:1).
